

The Housing Module

provides comprehensive housing services from renting agency housing to rehab and new construction services, qualification, education and counseling services. If your agency provides rent-controlled apartments, counseling services or builds and maintains its own housing, it's all here!

Housing Program

This form covers new construction, rehab and management of housing facilities including purchase orders, work orders, funding and disbursements, and notes. Here you can track units historically, monitor project deadlines/milestones, set and monitor funding sources and track expenditures, all in one form.

Client Information

Records client data relating to rent or home ownership capability: credit, training, work and finances, housing history and notes, readying and preparing your clients.
