

## The Daycare & Unified Child Care Module

is a flexible and comprehensive child care management program that includes automatic eligibility checking, service request checklists, special needs details, hours of need details, co-pay and costing tools, a detailed enrollment module with daily attendance and meal delivery scheduling, and a waiting list.

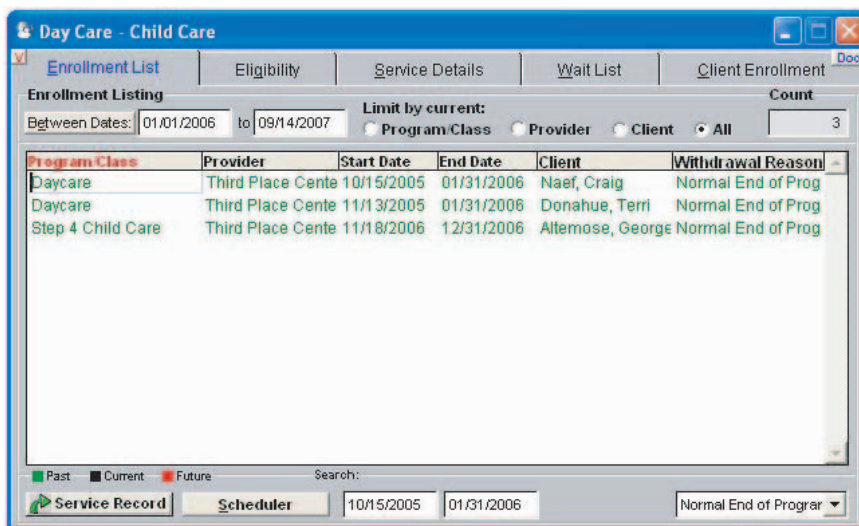

The Daycare & Unified Child Care Module allows you to track a child's attendance, meet service delivery goals, integrate with ROMA and CSBG, provide services when needed, transfer from one program to another or refer the child or parent to complimentary services. This module also includes reporting capabilities that let you monitor each site and every client.

## Attendance and Meal Delivery

Integrated into Daycare & Unified Child Care is a daily attendance and meal delivery system that helps you keep your attendance and nutritional programs up to date, in order to better serve every child's needs.

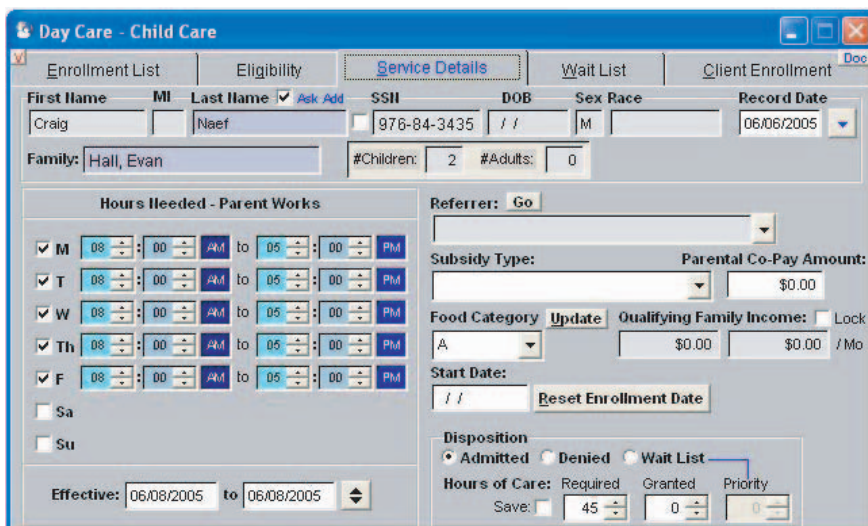

## ENROLLMENT LIST

| Program Class     | Provider          | Start Date | End Date   | Client           | Withdrawal Reason  |
